INDIANA CONCRETE MASONRY ASSOCIATION

AFFILIATED WITH THE NATIONAL CONCRETE MASONRY

State Chapter of the Mason Contractors Association of America

## ICMA's 16th Annual Award of Excellence

On March 4, 2010, the Indiana Concrete Masonry Association and the Midwest Masonry Council honored Indiana projects that exhibited outstanding architectural design, technical competency, demonstrated concern for detailing within the masonry systems and showed creative exploration of the esthetic possibilities of masonry. Eleven projects were awarded at the luncheon, celebrating ICMA's 16th annual Excellence in Masonry program.

The jury comments were provided by Lynn App, jury chair, who retired in 2007 after 40 years in practice. The jury was pleased to see the high quality and number of projects submitted in the current economic environment. Jury deliberations were lengthy and the following projects earned recognition at the 2010 ICMA/MMC Award of Excellence Program.
